Hospitals Business-

- Average revenue per patient (ARPP) was ~₹1,73,318 in Q2, up ~9% YoY — driven by richer case-mix (cardiac, oncology, neuro, gastro, ortho) and tariff increases
- Group occupancy was ~69% in Q2; surgical volumes rose ~3% while medical admissions were seasonally lower.
- International patient decline (Bangladesh) reduced revenue by ~1% in Q2 and according to the management ~60% of Bangladesh volumes reported to have returned in October.
- Six hospitals are to be added across FY26–27 (phased commissioning across Q3FY26–Q1FY27); new hospitals are in existing markets to aid faster ramp.
- Operational improvements (robotics, minimally invasive techniques, digital command-centre) lowered ALOS (~7% decline) and improved capacity utilisation
- The management is expecting EBITDA Margins to reach 25%+, with a temporary ~100 bps dip in FY27 due to ramp-up losses of ₹150 crore over two years.

HealthCo Business-

Digital pharmacy losses have narrowed and HealthCo EBITDA improved in Q2.

- Platform GMV for the quarter was ~₹723 crore in Q2; user base grew (digital reach expanded month-on-month). E-pharmacy is the largest GMV contributor (~55–60%).
- Offline Pharmacy distribution EBITDA improved (~₹181 crore), management trimming unprofitable B2B lines and focusing on profitable GMV growth and POS/retail integration.
- Keimed saw a one-time integration expense in Q2; GST/regulatory shifts had modest top-line effects but are expected to be non-material to mediumterm margins.

Regarding the Insurance & digital distribution, insurance is sold mainly via digital channels and management doesn't look forward to add sales staff for insurance.

- The management expects insurance to be a profitability lever as scale improves.
- The offline pharmacy network has over 6,928 stores, with 186 added in Q2. FY26 target is 600 new stores, with expansion in Central and South India.
