

Moderate Compounders

VALUE GROWTH ORIENTED FUND

Objective

Moderate Compounders aim to achieve capital appreciation by employing a blend of value and growth investing strategies. Our investment approach is to identify superior compounding growth stories that have the potential to deliver long-term results. We are always on the lookout for high-quality, resilient, relatively smaller players in their respective industry (like market leader, near market leader) who can grow even bigger in the future. We believe in safeguarding our clients’ capital. If we are stumped on an investment plan, we would rather sit on cash rather than risk a permanent loss of capital.
